Installing SQL Server 2012 Express.

Make sure your OS is up to date. Download from: <u>http://www.microsoft.com/express/database/</u> OR login to MSDNAA and download it from that website: <u>https://services.cs.sfu.ca/msdnaa/</u> Make sure to install the right version. The version you are downloading must have tools and management studio.

Please follow the instructions and if some part of your installation is different, maybe you are not using the right version

Search for Microsoft SQL Server 2012.

After selecting this version of SQL server express a page will come up asking you to download SDM and install it.

Get Your Software in 4 Easy Steps

1.	Download the Secure Download Manager (SDM) installation file 🔞 (If you have completed this step previously, go to step 3)	Download SDM
2.	Locate the file from step 1 and run it to install the SDM 🔞	
з.	Download the .SDX file for your order 💿	Download .SDX
4.	Locate the file from step 3 and open it to download your software order 💿	

After installing SDM, download SDX and open it and press Start Download
