Final Exam Reminders, Instructions, and Information

Getting Ready

- Online Final Exam Wednesday April 15 10:30 am-1:30 pm
    - No time extensions will be given
- Do a browser check before: Google Chrome or Firefox recommended
- Take the exam in a quiet location, with a wired internet connection or strong Wi-Fi signal
- For text answers, write them in a word processing app first, then cut and paste into the quiz answer fields. You can write out answers by hand too. But I would advise against if for two reasons.
    - You will lose marks if we have difficulty reading your answer
    - You discourage yourself from correcting your answer after proof-reading

Format

- Exam is given on Canvas
- There are **two parts**:
    - Long Answer: answer 2 questions from the 6 posted on courses.cs.sfu.ca
    - Short Answer: answer the 14 questions in sequence.
    - Both quizzes are open for the whole exam duration, you can take them whenever you are ready.

Potential Problems

- You can post on the canvas discussion board **Final Exam Clarifications**
- The quiz is set to allow you a second attempt, so you can check your answers and correct problems *once*.

Taking the Exam

-
- In addition to content, clarity of the answers will also be considered.
    - Also legibility if you write the answers by hand
- No text is to be copied and pasted from external resources, your answers must be in your own words.
- Press the submit button only when you have completed the quiz. Canvas will warn you if some questions are not answered.
